The applicant for a Type III application is encouraged to hold a neighborhood meeting with a recognized neighborhood or community organization. If no organization exists, then the applicant is encouraged to hold a meeting with adjacent property owners within a radius of 250 feet who will receive public notice.

16.170.003 Traffic Impact Study

The purpose of this section of the code is to assist in determining which road authorities participate in a land use decision, and to implement Section 660-012-0045 (2) of the State Transportation Planning Rule that requires the City to apply conditions to development proposals in order to minimize impacts and protect transportation facilities.

This Chapter establishes the standards for when a proposal must be reviewed for potential traffic impacts; when a Traffic Impact Study must be submitted with a development application in order to determine whether conditions are needed to minimize impacts to and protect transportation facilities; what must be in a Traffic Impact Study; and who is qualified to prepare the Study.

- A. When a Traffic Impact Study is required. The City or other road authority with jurisdiction may require a Traffic Impact Study (TIS) as part of an application for development, a change in use, or a change in access. A TIS may ~~shall~~ be required when a land use application involves one or more of the following actions:
1. A change in zoning or a plan amendment designation;
 2. Any proposed development of land use action that a road authority states may have operational or safety concerns along its facility;
 3. An increase in site traffic volume generation by 300 Average Daily Trips (ADT) or more; or
 4. An increase in site traffic volume of a particular movement to and from the State Highway by 20 percent or more; or
 5. An increase in use of adjacent streets by vehicles exceeding the 20,000 pound gross vehicle weights by 10 vehicles or more per day; or
 6. The location of the access driveway does not meet minimum sight distance requirements, or is located where vehicles entering or leaving the property are restricted, or such vehicles queue or hesitate on the State Highway, creating a safety hazard; or
 7. A change in internal traffic patterns that may cause safety problems, such as back up onto a street or greater potential for traffic accidents.
- B. Traffic Impact Study Preparation. A Traffic Impact Study shall be prepared by a professional engineer in accordance with the requirements of the road authority. If the road authority is the Oregon Department of Transportation (ODOT), consult ODOT's regional development review planner and OAR 734-051-180.
- C. City Street Improvement Requirements. In addition to street improvement requirements in this code for new development, see Chapters 16.145 and 16.150 for street improvement requirements related to single family homes and commercial and industrial expansions.

16.170.010 Type I Administrative Review by City Planner

The decision is effective on the day after the appeal period expires. If an appeal is filed, the decision becomes effective on the day after the appeal is decided by the City Council.
